ABOUT ME

As an experienced 3D visualizer, I am highly skilled in using software like SketchUp and Lumion, as well as advanced 3D modeling techniques. I specialize in turning ideas into immersive visual experiences for architectural visualization, interior design, and landscape modeling.

EXPERIENCE

Freelance 3D Visualizer

2022 - Current

THARAPAR Construction Company

2024 - Current

As a 3D visualizer for a building and construction company, I create detailed visual representations of architectural designs using tools like **SketchUp** and **Lumion**.

- 3D visualization and complete rendering of monastery
- Exterior rendering and visualization of two storey buildings
- Sketch plan for a warehouse
- Short animation of 3D visualization buildings
